

COPY AND PASTE TEXT AND IMAGES IN WINDOWS 98,XP and VISTA

The screenshot shows the Windows XP Help and Support Center interface. At the top, there is a search bar with the text "cut and paste" and a green search button. To the right of the search bar is the "Help and Support Center" logo and the text "Windows XP Professional". Below the search bar, there are navigation options: "Add to Favorites", "Change View", "Print...", and "Locate in Contents".

The main content area is titled "Windows keyboard shortcuts overview". It includes an introductory paragraph: "Use shortcut keys as an alternative to the mouse when working in Windows. You can open, close, and navigate the Start menu, desktop, menus, dialog boxes, and Web pages using keyboard shortcuts. Keyboard shortcuts may also make it easier for you to interact with your computer." Below this is a sub-section titled "General keyboard shortcuts" which contains a table of shortcuts.

Press	To
CTRL+C	Copy.

USE SHIFT + PRTSCR KEYS TO CAPTURE YOUR WINDOWS 98, XP and VISTA SCREEN IMAGES

Windows users can snap a picture of their current desktop screen and then paste it onto various apps such as MS WORD.

Briefly ---> Press and hold Shift key, tap the PrtScn Key (above SysRec key) to capture your screen, Your cursor should flash briefly. Next open MS Word, your favorite Image Editor or MS PAINT - as preferred. Then Rt Click and PASTE the Image. Edit and Save.

Shift+ Print Screen - In Detail

=====

1) **Start by pressing Shift key down and tap the PrtScn Key once or twice, the cursor should flicker briefly**, indicating an image is now loaded into the Windows Clipboard. Only one image at a time though - unless you have a *clipboard manager add-on*.

2) **Open WORD** and select the Edit Menu and Choose PASTE.

3) **Select** the image and activate/use the ****Picture Toolbar**** to locate and select the CROP feature - it looks like **two Ls** or brackets colliding. Click and hold Crop tool on one of the dimensioning points at perimeter of image. Drag it inward to effectively CROP your image. Exit Crop tool. Next drag edges of image to re-dimension it. Remember in WORD you can always press Control Z to Go Back (undo).

TIP#1: To activate the ****Picture Toolbar**** select the **T**ools menu, choose **C**ustomize, then select **T**oolbars and place check on **P**icture.

TIP#2: Try **I**nset, "**T**ext Box" to add floating or optionally framed text object adjacent to your image (as used here).

TIP#3: To create a **JPG image** file you may wish to Paste your image into **Microsoft PAINT** or to a similar Graphics application.

VISTA ULTIMATE USERS can download this free **SNIPPING TOOL** from Microsoft Vista Ultimate Extras, found at the regular Windows update site. Vista and XP users can use always use "Shift+PrtScr" to copy screens.

Pasting Captured (snapped) Screens into WORD

A typical use is to Rt-Click and "Paste" the captured screen image of a Windows screen or photo into WORD. Then you can use the PICTURE toolbar to CROP the image, and re-dimension it as well. Be sure you have the **Picture Toolbox Option Checked** in the Tools, Customize, Toolbar Tab section of your WORD application.
